Non Member \$1,075

This four-day program is designed to provide indoor environmental consultants and others interested in indoor environments a framework for recognizing, evaluating and controlling indoor environmental quality issues. An Environmental Consultant is a professional who can identify the causes of poor indoor air quality – even when problems seem vague or unrelated to visible causes. Also serves as exam prep for American Council for Accredited Certification (ACAC) Certified Indoor Environmentalist (CIE) or Certified Indoor Environmental Consultant (CIEC) Certifications.
